SUMMARY

I am an enthusiastic Frontend Developer at a beginner level, with a solid foundation in HTML, CSS, and JavaScript. I am currently learning the MERN stack (MongoDB, Express.js, React.js, Node.js) to strengthen my full-stack development skills. I have hands-on experience in creating responsive user interfaces and building basic websites using WordPress (Astra theme, Elementor drag-and-drop). My passion lies in developing functional, user-friendly applications and continuously enhancing my technical expertise. I am eager to contribute to a professional environment where I can apply my skills, gain practical experience, and grow as a developer.
